

The Great Wall of China

Hello! I'm a first-grade student, and I want to tell you about the Great Wall of China. It's a very, very long wall that was built a long time ago. It's so big that you can see it from space!

What is the Great Wall?

The Great Wall was made to protect China from people who wanted to come in and cause trouble. It stretches across mountains and deserts, and it's very, very old.

Visiting the Great Wall

When you visit the Great Wall, you can walk on it and see how wide and strong it is. It's made of bricks and stones, and it's built on the tops of hills so you can see far away.

Why is the Great Wall Amazing?

I think the Great Wall is amazing because it shows how smart and hardworking the people who built it were. It's a symbol of our country and a place where we can learn about our history.

A Hope for You

I hope you can visit the Great Wall one day and see how wonderful it is!
